- **Logos:** Please include the WIN, NRI, Intel, and UC Discovery logos on your posters (see below or download from www.win-nano.org)
- **Poster Format Guide:**
 - a) Title, Names, Institution, WIN Theme Affiliation
 - b) Objective
 - c) Introduction
 - d) Experimental
 - e) Results and Discussions
 - f) Conclusions and Future Plans

ABSTRACT FORMAT (Example)

The Heading of My Abstract Is Outstanding in 14 point FONT (BOLD) Times New Roman

Faculty(PI): Kang Wang

Researchers: Kos Galatsis, Katie Christensen

University: Electrical Engineering, UCLA

WIN Affiliation: Theme 3

I have taken careful note to correspond with the abstract formatting requirements. I have the option of including one illustration in my poster abstract, but I must beware, because the total text and illustration cannot exceed one page. Busy people would love this format, as it will give them a quick dose of my research and attract them to my poster. Once I am finished composing my abstract, I will send it in *.doc format to the WIN Center by emailing it to kwilson@ea.ucla.edu. I know that I will need to submit my abstract by **Monday, August 25th** in order for it to be included in the review booklet. I will make sure to **contact Katie Wilson at 310-825-9164** if I have any questions.
